PBA PANEL

GENERAL INFORMATION

Coverage: 36" coverage with 1 1/8" rib height.

Length: Minimum recommended cut length is 5'0". Maximum is 45'-0". *Longer panels need special consideration for erection, packaging, and shipping.*

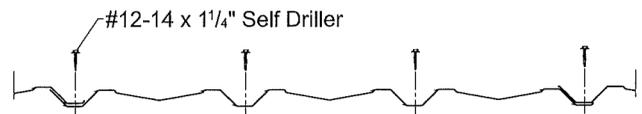

Substructure: Designed for use over open structural framing or solid substrate. *Uniform and properly aligned substructures are necessary to avoid distortion.*

Gauge: Available in 24 gauge and 26 gauge.

Fasteners: Exposed fastener product. Contact your representative for assistance in choosing the proper fastener for your project.

*All panels are subject to surface distortion when fasteners are improperly applied. Fasteners that are over-driven will cause stress across the face of the panel at or near the point of fastening.

- 36" coverage
- 1 1/8" rib height
- Galvalume substrate
- 18 Sherwin Williams colors
- Complete line of accessories
- Vertical application only
- Exposed fastener panel
